

Notes for Survey Administrator:

These questions can be used in intentional phone conversations made by a group of leaders in the church or conducted as a survey.

If this survey is sent to the entire church, be sure to make it clear this is designed to help members/attendees of the church to meet needs among other attendees of the church.

Don't send this without first approaching several leaders to help in addressing needs that surface.

We realize our ability to have good, two-way communication during social distancing has not been ideal. So, we want to pause and specifically ask each member how you are doing. Your responses will be kept confidential, except in areas where we need to involve someone to extend help to you.

1. In what ways have you experienced loss during the Coronavirus pandemic? Where are you in terms of dealing with this?

2. What physical needs do you have or think you may soon have? (Be honest.)

3. How are your relationships with family and those close to you?

4. What have your conversations with God been like lately? What are you questioning? What are you asking for? What has he been teaching you?

5. What **gifts or resources** do you have that you think God may want you to use to help others? What opportunities has God already given you?
